Provisional Recommendations for New Council Boundaries

Dear Commissioner,

Council has considered the provisional recommendations published for the boundaries and names of the proposed seven new local government districts in Northern Ireland and their constituent wards.

I am directed by Council to register its objection to the proposal for seven new local government districts, rather than eleven or fifteen.

It is noted that the public hearings planned to be held in January/February will provide an opportunity for public discussion on the manner and extent to which the recommendations affect the proposed local government district(s) and wards.

Yours sincerely,

Head of Corporate & Development Services
