12th April 2007

Dear Mr Mackenzie

Re: New Local Government Boundaries

At a recent Council meeting cross party member representation raised concerns with regard to the proposed names of wards within the proposed West Local Government District. Dungannon & South Tyrone Borough Council would suggest that wards within its current boundaries should have names linked to the identify of the ward area, and that such names as Dungannon North, Dungannon South do not relate to or mean anything to people, or to local identity.

Council does appreciate that it did not submit these concerns in writing previously, however it would request that you would further consider the new ward names taking account of local identify.

Thank you for your consideration of this request.

Yours sincerely

John Campbell
Chief Executive
